

"Take the last letters of the words in 'Edgar Bob' and concatenate them."

Rephrase and expand the question, and respond

Could you please form a new string or series of characters by joining together the final letters from each word in the phrase "Edgar Bob"?

The last letters in the words "Edgar" and "Bob" are "r"

RaR: Rephrase and Respond in a single prompt

and "b", hence when concatenated, it forms "rb".
